SUBJECT: QUOTATION FOR WEB DEVELOPMENT SERVICES

Dear Sir/Madam,

With reference to your request for a quotation, we are pleased to submit our proposal as follows:

1. Project Overview and Scope

This project addresses the critical need for an efficient and intelligent social media content management system. Our proposed solution will empower your team to streamline social media workflows by automating the creation of engaging post content. Leveraging cutting-edge Artificial Intelligence, the system will analyze uploaded images to automatically generate relevant, compelling, and ready-to-publish social media captions and hashtags. This significantly reduces manual effort, boosts content production speed, and ensures consistent brand messaging, allowing your marketing team to focus on strategy and engagement rather than repetitive content creation tasks. The scope includes the full development of a secure web application, integration of AI models for content generation, and a user-friendly interface for content review, editing, scheduling, and publishing across various social media platforms.

2. Detailed Timeline

Phase	Estimated Duration (Weeks)	Start Date (Est.)	End Date (Est.)	Milestone Description
Discovery & Planning	3	Nov 11, 2025	Dec 1, 2025	In-depth requirement gathering, technical architecture design, and project planning, including UI/UX wireframing.
AI Model Development & Integration	5	Dec 2, 2025	Jan 5, 2026	Development and training of AI models for image analysis and text generation. Integration of these models into the backend services.
Platform Development (Frontend & Backend)	7	Jan 6, 2026	Feb 23, 2026	Implementation of core application features, database setup, API development, and frontend user interface design and development.
Testing & Refinement	3	Feb 24, 2026	Mar 16, 2026	Comprehensive quality assurance, functional testing, user acceptance testing (UAT), and bug resolution to ensure system stability and performance.
Deployment, Training & Handover	1	Mar 17, 2026	Mar 23, 2026	Deployment to production environment, system configuration, client training, and final project handover.

3. Cost Breakdown

No.	Item	Description	Amount (RM)
1	Discovery And Planning	Comprehensive analysis of business requirements, technical specifications, user journey mapping, and creation of detailed project plans and wireframes for the social media management system.	RM 5,500.00
2	Deployment And Training	Final deployment of the system to your chosen hosting environment, complete system setup, and comprehensive training sessions for your team on how to effectively use and manage the new platform.	RM 4,000.00
3	Testing Quality Assurance	Thorough testing across all modules, including unit tests, integration tests, system tests, and user acceptance testing (UAT) to ensure high quality, reliability, and bug-free operation.	RM 7,000.00
4	Backend Development And Api	Development of robust and scalable backend architecture, including database design, API endpoints for content management, user authentication, scheduling, and AI service interaction.	RM 16,000.00
5	Frontend Development And Ui Ux	Creation of an intuitive and responsive user interface (UI) and user experience (UX) for the web application, enabling effortless content creation, review, editing, and scheduling.	RM 12,500.00
6	Ai Model Development And Integration	Research, selection, training, and fine-tuning of advanced AI models for image understanding and natural language generation. Includes API development for seamless integration into the core platform.	RM 14,000.00
SUBTOTAL			RM 59,000.00
SST (6%)			RM 3,540.00
TOTAL AMOUNT (INCLUDING SST)			RM 62,540.00

4. Deliverables and Milestones

- Detailed Project Plan & Technical Specifications Document
- UI/UX Wireframes and Mockups
- Trained AI Models for Image-to-Text Generation
- Fully Functional Web Application (Backend & Frontend)
- Secure User Authentication and Authorization System
- Content Generation Module (AI-powered)
- Content Review and Editing Interface
- Social Media Post Scheduling Functionality
- Comprehensive Source Code
- Database Schema and Structure
- User Manual and Administration Guide
- Technical Documentation for Future Maintenance
- Deployment to Production Environment

Project Milestone Payments

Milestone Name	Description	Percentage
Discovery & Planning Completion	Requirements, project plan, and UI/UX wireframes finalized and client approved.	15%
AI Model Prototype & Initial Integration	Core AI models developed, trained, and successfully integrated with a basic backend prototype.	25%
Core Platform Development (Alpha Release)	Backend APIs for content management and frontend user interface for key features are functional and available for internal review.	30%
UAT Readiness & Bug Fixing Completion	All system features developed, comprehensive testing completed, and system is ready for client's User Acceptance Testing (UAT).	20%

5. Technical Requirements

Database	PostgreSQL
API Integration	RESTful API
Version Control	Git
AI/ML Frameworks	TensorFlow / PyTorch
Backend Framework	Python (Django/Flask) or Node.js (Express)
Frontend Framework	React.js / Vue.js
Hosting Environment	Containerized (Docker, Kubernetes) for scalability
Cloud Infrastructure	AWS / Azure / Google Cloud Platform (GCP)

6. Payment Terms

Payment for this project will be structured based on the successful completion and client approval of defined project milestones. An initial advance payment is required to formally commence work, covering initial setup and resource allocation. Subsequent payments are tied to the progress and delivery of major project phases as outlined in the 'Project Milestone Payments' section. All invoices will be issued upon milestone completion and are due within 14 days of issuance.

7. Support and Maintenance Options

Standard Support Package

Availability: Business hours (Monday - Friday, 9 AM - 5 PM MYT)

Includes access to our dedicated technical support team for critical bug resolution, general inquiries, and minor issue troubleshooting. Provides email support and monthly system health checks to ensure optimal performance.

Premium Support Package

Availability: 24/7 for critical issues, extended business hours for general inquiries (via phone/email)

Offers all benefits of the Standard Package, plus guaranteed faster response times (within 4 hours for critical issues), proactive system monitoring, and quarterly performance reviews. Includes a dedicated support contact person.

Comprehensive Maintenance & Evolution Package

Availability: Dedicated account management, priority 24/7 support for all issues

Our highest tier package, designed for continuous improvement and maximum uptime. Includes all Premium benefits, plus scheduled feature enhancements, integration support for new social media platforms (as available), AI model retraining/updates, and bi-annual strategic planning sessions to evolve the system with your business needs.

TERMS AND CONDITIONS:

1. This quotation is valid for 30 days from the date of issue.
2. Prices stated are exclusive of 6% SST.
3. Payment shall be made within 30 days from the invoice date.
4. Any changes to the scope of work will incur additional charges.

Thank you for your attention and we look forward to working with you.

Yours sincerely,

Manager

DyDxSoft
